

PROJECT 2025: ENDING ACCESS TO IVF ACROSS THE COUNTRY

Expanding Alabama's IVF Ruling Nationwide

FROM PROJECT 2025:

“From the moment of conception, every human being possesses inherent dignity and worth, and our humanity does not depend on our age, stage of development, race, or abilities. The Secretary must ensure that all HHS programs and activities are rooted in a deep respect for **innocent human life from day one until natural death: Abortion and euthanasia are not health care.**”

FROM PROJECT 2025:

“In the context of **current and emerging reproductive technologies**, HHS policies should never place the desires of adults over the **right of children to be raised by the biological fathers and mothers who conceive them.**”

Because the male–female dyad is essential to human nature and because **every child has a right to a mother and father**, three-parent **embryo creation** and human cloning research **should be banned.**”

WHAT HAPPENED IN ALABAMA?

**Alabama Supreme Court rules
frozen embryos are children,
imperiling IVF**

From the Washington Post; February 20, 2024

University in Alabama Pauses Treatment After Embryo Ruling

- School examines threat of criminal prosecution of its doctors
- Questions linger about future of fertility business in state

WHAT DOES THIS MEAN:

Project 2025 makes **multiple references to life beginning at conception**. This idea is the foundation for many of their policies regarding abortion, IVF, and genetic research. Make no mistake **they will take Alabama's ruling national**, stifling the chance for the thousands of people across the county who need IVF to have children.

Why would they target IVF?

IVF allows LGBTQIA+ couples to have children, it allows women without partners to have children.

WHAT DOES THIS MEAN:

Think Trump is the only candidate willing to implement these policies? You're wrong.

Nicki Haley is on record saying that embryos are children which is a straight line to a federal abortion ban.

Project 2025 and those who have pledged to enact it will stop at nothing to completely upend bodily autonomy, fertility and family planning as we know it.

EXCLUSIVE

2024 ELECTION

Nikki Haley sides with Alabama Supreme Court on IVF ruling: 'Embryos, to me, are babies'

The Alabama court's recent ruling raised concerns among doctors and patients that classifying embryos as children could restrict in-vitro fertilization.
