

PROJECT 2025

THE RIGHT'S ROAD
TO A DICTATORSHIP

PART 1: AN OVERVIEW OF PROJECT 2025

WHAT IS PROJECT 2025?

Project 2025 is the far-right blueprint for the next conservative administration to gut the federal government by firing federal workers and installing loyalists, allowing a small faction of far-right despots to take over.

According to Project 2025, “It is not enough for conservatives to win elections. If we are going to rescue the country from the grip of the radical left, we need both a governing agenda and the right people in place, ready to carry this agenda out on day one of the next conservative administration...The project will build on four pillars that will, collectively, pave the way for an effective conservative administration.”

WHAT ARE THE FOUR PILLARS?

- Pillar I—outlines massive changes to the federal government, reducing transparency, and gutting civil liberties.
- Pillar II is a personnel database that allows candidates to build their own professional profiles and P2025 coalition members to review and voice their recommendations. These recommendations will then be collated and shared with the President-elect's team, fast-tracking potential appointments.
- Pillar III is the Presidential Administration Academy, an educational system taught by the P2025 coalition. Trainings would abandon current government responsibilities and replace them with conservative tenets, supplanting decades of institutional stability.
- In Pillar IV—the Playbook—reorganizes government agencies and lays out the implementation plan as soon as the next conservative president is sworn in.

PILLAR 1

The manifesto lays out the thought processes for policy changes , and makes general recommendations for the next administration. Some of the most concerning things outlined are:

- Directs EPA to stop efforts on fighting climate change
- Reinstates Schedule F
- Removes regulatory agency independence
- Eliminates nearly all access to abortion and birth control

PILLAR 2

The Project 2025 architects are compiling a database of candidates to place pre-screened loyalists in positions throughout the administration on day one.

In fact, Axios reported in November of 2023 that the Presidential Personnel Database already has over 4,000 entries. This will allow the next administration to enact policy changes without pushback from other appointees or staff.

PILLAR 3

“Pillar III is the Presidential Administration Academy, an online educational system taught by experts from our coalition. For the newcomer, this will explain how the government functions and how to function in government. For the experienced, we will host in-person seminars with advanced training and set the bar for what is expected of senior leadership.”

This is special training they would put appointees through. While some training is normal for new positions, these trainings are taught by various instructors through The Heritage Foundation, one of the spearhead organizations for this plan.

PILLAR 4

“Pillar IV—the Playbook—we are forming agency teams and drafting transition plans to move out upon the President’s utterance of ‘so help me God.’”

This is an outline of actions the executive branch should take in the first 180 days of the next administration to enact all of the policy recommendations they made in the manifesto, AKA Pillar 1. Their site says: “The time is short, and conservatives need a plan. The project will create a playbook of actions to be taken in the first 180 days of the new Administration to bring quick relief to Americans suffering from the Left’s devastating policies.”

P2025 ARCHITECTS

There are over 80 organizations funding and supporting this plan, but the main organizers are The Heritage Foundation

WHO ARE THEY?

The Heritage Foundation is a prominent conservative think tank based in the United States. They conduct research, produce policy recommendations, and advocate for conservative policies on various issues such as economics, healthcare, immigration, and foreign policy.

HAVE THEY HAD SUCCESS BEFORE?

Under President Ronald Reagan's leadership, the foundation's policy recommendations and conservative principles played a crucial role in shaping the administration's agenda. In the manifesto, they cite the Reagan administration took 60% of their policy recommendations.

WHO ELSE IS INVOLVED?

- Turning Point USA
- Moms for Liberty
- Texas Public Policy Foundation
- Susan B Anthony Pro-Life America
- Mississippi Center for Public Policy
- Leadership Institute
- Family Policy Alliance

- Defense of Freedom Institute
- Concerned Women of America
- America First Legal
- The American Conservative
- Alabama Policy Institute
- Conservative Partnership Institute
- Center for Renewing America
- And many more
